INTRODUCTION

I'm a software developer with a passion for exploring every aspect of the software world. I can quickly learn and adapt to new technologies and am driven by challenges. Capable of coding in any programming language, I believe expertise is determined by how much one learns and accomplishes each year.

EXPERIENCE

Primus Software Development

Senior Software Developer | AUGUST 2023 - PRESENT

Software Developer | AUGUST 2021 - JULY 2023

Project: Digital Desk - Insurance Sector

- Digital Desk is an insurance sector project that serves as a bridge between insurance companies and service providers, facilitating resolution processes when disasters occur.
- I collaborated with the front-end team to implement features such as real-time chat between desk adjusters and policyholders, as well as a scheduled video call functionality.
- Staff Portal: Contributed to onboarding clients by setting up their organizations and programs, and integrated third-party services like Aircart to facilitate bulk SMS and email communication. Additionally, I collaborated with the US team on various user flows. Later, I worked on the Digital Communication Hub (DCH) to migrate all processes from Aircart.
- Tech-Stack: Angular, SCSS, TypeScript, Kendo UI, .NET, SQL DB, Microsoft Azure, AWS.

Primus Software Development

Intern Software Developer | OCTOBER 2018 - JULY 2021

Project: HR Portal - Internal Application

- The HR Portal is a comprehensive and user-friendly Human Resources Management System (HRMS) designed to streamline and automate various HR functions for Primus.
- Initially, I contributed as a front-end developer, designing 30% of the project. Later, I transitioned to back-end development,

SKILLS

NodeJs, ExpressJs, NestJs

Angular, React, NextJs

HTML, CSS, SASS, SCSS
JavaScript, TypeScript

Bootstrap, Kendo UI, Material
UI, Shaden UI

Flutter - Android, iOS

SQL, MongoDB, FireStore

AWS, Hostinger, Firebase,
Play Store, Appstore

AWARDS

Secured 1st place in CODE
FIESTA (2019) Web Development
Hackathon.

Secured 1st place in CODE
MARATHON (2019) Problem
Solving Competition.

Secured 1st place in TECHGLANZ
(2018) Coding Competition.

LANGUAGES

English | Hindi | Kannada |
Marathi

implementing complete CRUD operations, authentication, email services, and file management functionality.

- I led a 6-member Primus Innovation team, assigning tasks and managing the team, which enhanced my leadership skills.
- **Tech-Stack:** HTML, CSS, SASS, SCSS, JavaScript, TypeScript, Angular, NodeJs, ExpressJs, MongoDB, Microsoft Azure.

Freelancer

Full Stack Developer | Flutter Developer

- **My sole motivation for working as a freelancer is to gain extensive experience in the world of software development.**
- As a freelancer, I have worked on multiple projects. My most recent project was in the Food & Beverages industry and took a year to complete. It included developing an admin web application along with customer-facing Android and iOS apps.
- Through my freelance projects, I had the opportunity to work on a wide range of features, including real-time push notifications for apps, GPS tracking for live bus locations, and web sockets. I also gained experience in hosting applications on platforms like Play Store, AppStore, Hostinger, and AWS, along with various DevOps tasks. Additionally, I integrated payment gateways, implemented SMS services in India with DLT registration, and integrated WhatsApp & Google Maps. I developed features including graphs, charts, and AI-driven modules.
- **Tech-Stack:** Flutter, Angular, React, NextJs, Material UI, Shadcn UI, NodeJS, NestJS, SQL, MongoDB, Firebase, Hostinger, AWS.
